

## COMPANY OVERVIEW

Biohaus Jobs. (owned and operated by Nano Life Quest Sdn Bhd) was established in the year 2013 and has officially launched the region's first scientific eCommunity in January 2016. We aim to engage and bridge people from the science community, backed with more than 10 year's experiences in related industries.

We are Malaysia's online scientific jobs portal that provides one of the greatest platforms for scientific communities to explore their dream career in science. Our Jobs site is a new gateway to the right jobs and the right talents specializing in biotechnology and life sciences sectors. We revolutionize the current employment trends.

## ABOUT BIOHAUS JOBS

### Malaysia's Online Job Site for the Job Needs in Science

One of a kind in Malaysia that provides one of the greatest platforms for scientific communities to explore your dream career in science

### Made the Job Search Easier

Diverse job options in the science field ranging from Biology, Chemistry, Physics, Healthcare Science, Engineering, Biotechnology and many more
